"I wonder why they walk like that when they shout at each other," she mused absently. "Do you know why, Cromwell?" "Uh, yeah." Borftein licked his lips and thought frantically. As Stormbel! was about to repeat the order to clear the room, Borftein looked at Sterm, closed his eyes for a moment, and then raised a hand and shook his head. Sterm looked at him questioningly. "I'm not sure I even know what's happened," Borftein said. "It's been too sudden. Just what do you think you're going to do?" Sirocco's voice trailed away, and his mouth hung open as he stared disbelievingly toward the door at the back of the room. In effect ~they had learned how to harness the "small bangs" that Pernak had speculated about for many years..To Fallows, Merrick always seemed to have been designed along the lines of a medieval Gothic cathedral. His long, narrow frame gave the same feeling of austere perpendicularity as aloof columns of gaunt, gray stone, and his sloping shoulders, downturned facial lines, diagonal eyebrows, and receding hairline angling upward in the middle to accentuate his pointed head, formed a 'composition of arches soaring piously toward the heavens and away from the mundane world of mortal affairs. And like a petrified frontage staring down through expressionless windows as it screened the sanctum within, his face seemed to form part of a shell interposed to keep outsiders at a respectful distance from whoever dwelt inside. Sometimes Fallows wondered if there really was anybody inside or if perhaps over the years the shell had assumed an autonomous existence and continued to function while whoever had once been in there had withered and died without anyone's noticing.. "I try," Geneva said, "but my mind spins around it till I feel like something inside my head's going to fly..Kath laughed again. "Do they? They don't really, you know. The inversions came from the whole insane system that the Military was just a part of-the system that fought wars to protect peace and enslaved

nations by liberating them; that turned hatred and revenge into the will of an all benevolent God and programmed its litanies into the minds of children; that burned and tortured its heretics while preaching forgiveness, and made a sin of love and a virtue of murder; and which brought lunatics to power by demanding requirements of office that no balanced mind could meet. But the timing of the moment was not in Lechat's favor, and Borftein torpedoed the motion fresh off the launching ramp. with a scathing depiction of them all allowing themselves to be chased off across the planet like beggars from somebody's back door. Ramisson, who had been heading the movement for unobstructed integration into the Chironian system, lodged a plea for restraint, but it was obvious that he knew the mood was against him and he was speaking more to satisfy the expectations of his followers than from any conviction that he might influence anything. Why did it always have to be like this? she asked herself. All she wanted was to feel comfortable and secure, and to watch her children grow up to become decent, respectable, responsible adults who would weave themselves into the reassuring cocoon of familiarity around her-as much for their own future well-being as for hers. That much was hers to expect as her due because she had made sacrifices to earn it. It threatened nobody. So why should other people's squabbles which were not of her making now threaten her with sweeping it all away?.particularly old, but they are going to be a great team.."WE'LL TAKE CARE of that." Colman turned his head and called in a louder voice, "Stanislau, Young-come over here and give me a hand with this crate." Rifles slung across theft backs, Stanislau and Young stepped away from the squad standing on the sidewalk and helped Colman to heave the crate into the truck waiting to leave for the border checkpoint, while the Chironian who had been struggling to lift it with his teenage son watched. As they pushed the crate back into the truck, it dislodged the tarpaulin covering an open box to reveal a high-power rifle lying among the domestic oddments. The Chironian saw it and lifted his head to look at Colman curiously. Colman threw the tarp back over the box and tuned away..comfort: "In misfortune lies the seed of future triumph."Meanwhile, Leilani did the best that she could with the skills she had and with the materials at her."I didn't think it would, so I won't say it."Leilani didn't have a fearsome capacity for violence, maybe not any. Bernard's eyes narrowed a fraction. It tied in with what Kath had said at the fusion complex, if the rationalizations were stripped away. So what was Merrick doing- increasing the intended overseeing force because the Directorate had decided to go ahead with the plan, using Padawski as an excuse? "I'm not sure that I do," he replied. "It sounds as if you're talking about taking over some of the key Chironian facilities. Wouldn't that only make any trouble worse? ". "Coffee?" Geneva inquired..service-station pumps and barricades of parked vehicles to reach him. Billowing balls of fire, arcing jets. Kalens shrugged without looking up from the table. "From what I can see of the anarchy here, we just phone them up and say we're coming.". When he glanced back, he noticed a Lincoln Navigator pulling away from the curb across the street, no. "Isn't that what teaching children is all about?". "I pretend to," Leilani said quietly. "Around Dr. Doom, I play along with his story, all agog over Luki. Jay stood up and left the room quietly. Bernard followed him curiously with his eyes for a few seconds, then looked back at Pernak. "But it's a hell of a thin case for shipping everyone off to Iberia, isn't it? And besides, if you're right, then I'd have thought the best place to stay would be right here- all mixed up together with the Chironians. That way nobody's likely to start throwing any big bombs around, right?" He turned his head to grin briefly at Jean. "It wouldn't have worked," Wellesley countered. "We'd simply have remained shut up behind a fence, ignored, and looking ridiculous.". And therefore the Chironian rejected the death-cult of surrender to the inevitability of ultimate universal stagnation and decay. Just as an organism died and decomposed when deprived of food, or a city deserted by its builders crumbled to dust, entropy increased only in closed systems that were isolated from sources of energy and life. But the Chironian universe was no longer a closed system. Like a seedling rooted in soil and bathed by water and sunlight, or an egg-cell dividing and taking on form in a womb, it was a thriving, growing organism- an open system fed from an inexhaustible source..Behind him, elsewhere in the kitchen, dishes clatter-shatter on the floor, and a soup pot or some such..Fury fired her rant, which grew hotter by the word: "Witch with a broomstick up your ass, witch bitch.., "Smart . . . brains."
